 MUSÉE
DU
FJORD

Discover tentacled animals with superpowers that will charm young and old!

Octopuses, squids, and jellyfish have long fascinated humans. Thanks to this playful exhibit, you will pierce the secrets of their spectacular intelligence and learn more about their essential role in marine biodiversity as well as in the natural and cultural Canadian history.

With interactive games, films, photos, and sculptures, discover more about tales, legends, environmental challenges, and scientific research surrounding these tentacled animals.

This exhibit is a creation from Musée du Fjord.
